

Re: Off Duty Identification Wrist Band Program

Since Our recent SELC Convention in Louisville we have had several inquiries relating to the Kentucky League of Cities Off Duty ID Wrist Band Program.

The program was designed to increase the safety for police officers, particularly while plainclothes and off duty. The Kentucky League of Cities Insurance Services (KLCIS) provided the Off Duty Identification Wrist Band Program at no cost to participating KLCIS members.

The Kentucky League of Cities Off Duty Identification Wrist Band Program was inspired by a program implemented over 15 years ago in Louisville, Kentucky. It was developed after the mistaken shooting of a Louisville plainclothes detective by a uniform officer. The detective was pursuing an armed suspect. The incident resulted in a complete review of all plainclothes responses, and ultimately led to the implementation of a wrist band identification program. Since its inception, there have been no mistaken shootings of plainclothes officers in Louisville.

The Kentucky League of Cities model policies also have a section covering the use of the wrist bands and the proper procedures for off duty response. The model policy was developed by Jack Ryan and the Legal and Liability Risk Management Institute and anyone interested in obtaining this or other polices can contact Jim Alsup at:

The Kentucky League of Cities purchased our original Off Duty Wrist Bands from Galls. However they are no longer selling this product.

The Kentucky League of Cities currently uses Ad-Venture Promotions for our off-duty wrist bands.
