

Why Attend?

The Kinesic Interview and Interrogation will assist you in identifying and detecting deception based upon normal and abnormal response to stress.

The technique will provide you with the knowledge and understanding of personality profile of the subject and how to structure your interview and questions to gain the maximum information from your subject.

Upon Completion:

The attendee will be provided the knowledge and skills to conduct a successful and effective interview with results from **The Practical Kinesic Analysis Phase**.

- 1) **Verbal Cues** - Identification of symptoms of speech quality and content which give the interviewer the most productive body of data necessary to determine truth and deception.
- 2) **Practical Kinesic Statement Analysis** - Assessment of truth and deception through the use of verbal cues coupled with methods of human recall and symptoms made self-evident in the statement taking process.
- 3) **Body Language Cues** - The observable body language cues of deception that are unbalanced or inconsistent in relation to the speech cues or emotional symptoms generated by the subject at the same time.
- 4) **Kinesic Subject Control** - Discussion of various techniques available to the interviewer to take control and command of the interview environment. From proxemics to mirroring - the use of enhanced information gathering skills.
- 5) **Confession Behaviors** - Identification and recognition of the verbal and nonverbal acceptance cues generated by a subject who is prepared to give an admission of confession.

Phase I Practical Kinesic Interview and Interrogation®

Mastering Narrative-Based Interviews: Productive Information Gathering from Victims, Witnesses & Subjects

Course Objectives:

Your agency has likely seen time and time again, highly competent investigators struggle to obtain consistently meaningful information from victim, witness and subject interviews. The issue isn't lack of intelligence or bad intent - it's the lack of a useable advanced skill set that is causing them to miss critical information.

Current interviewing efforts may be ineffective for one or more reasons:

1. No formal interview skills training, so productive interviews rarely if ever are conducted.
2. Poor interview training which result in victim, witness, and subject interviews that are incomplete, missing important details or cause subject contamination.
3. Training is based on unscientific concepts and perpetuated myths. Deception is misdiagnosed, victims and witnesses are alienated, and subjects are wrongly accused or missed as persons of interest.
4. Techniques being used result in increased liability for the interviewer and the agency.

The Mastering Narrative-Based Interviews course is part of the Practical Kinesic Interview and Interrogation series. The content is based on empirical research into behavioral analysis and effective interviewing of victims, witnesses and subjects. Expertly presented, the proven concepts are immediately useable by your new investigators and upgrade the skills of those with the most experience.

Participants will learn:

- Master an effective narrative-based interview.
- 8 principles for improving interviews.
- How to recover 60% more information from victim, witness & subject interviews.
- 3 characteristics of a successful interview.
- 3 reasons investigators fail to accurately spot deception.
- How subjects' statements can be contaminated by the interviewer.
- 3 mistakes interviewers make that cause false confessions and contaminated statements.
- The 5 reaction / response behaviors that subjects exhibit and how to correctly handle each one.
- Introduction to Influence, Persuasion, Manipulation & Coercion
